

Computation
cloud

...) returning output of our analysis.

If we would calculate slowest
algorithm on some more powerful
server

```
graph TD; A[Computation cloud] --> B[If we would calculate slowest algorithm on some more powerful server];
```

The diagram consists of three rectangular boxes with dotted borders. The first box, located at the top left, contains the text 'Computation cloud'. The second box, located at the top right, contains the text '...) returning output of our analysis.'. The third box, located in the middle left, contains the text 'If we would calculate slowest algorithm on some more powerful server'. A solid black arrow points from the top-right corner of the third box to the bottom-left corner of the first box.
